

## WALKING TOUR

In the afternoon on a beautiful Sunday the staff held a walking tour event based on the new edition of the VILLAGE OF CLINTON HISTORIC WALKING TOUR. We had guests come from both the area and other places. Staff and the guests walked up and down the main street of Clinton talking about old buildings from the past, where they once stood or are still standing. Having this tour allowed people to get to know the village of Clinton a little bit better, the tour went over really well and the staff at the museum had amazing reviews from the folks who attended.
